

# 10m PCP Sight-In Target

Zero your scope at 10 metres · 1" grid · 4 satellite bullseyes for confirmation

Print this at 100% scale. Each grid square = 1"

How to use: Zero at the MAIN bullseye first. Once your group is stacked, shoot 5 confirmation shots at each corner satellite (TL/TR/BL/BR) to verify the rifle is tracking. Mark each impact. Each grid square = 1".
